Foreword	vii
Message	ix
Introduction	
History of Discovery	1
The Variety of Australian Dendrobiums	2
Habitats	3
1. <i>Tropical</i>	3
2. <i>Sub-Tropical</i>	8
3. <i>Temperate</i>	11
4. <i>Rocky Outcrops in Wet Sclerophyll Forest,</i> <i>Eastern Victoria and Eastern Tasmania</i>	12
5. <i>Pacific and Other Islands</i>	12
Classification and Taxonomy of <i>Dendrobium</i> in Australia	14
Pollination	15
Key to the sections of <i>Dendrobium</i> in Australia	15
1. Section <i>Aporum</i>	17
2. Section <i>Biloba</i>	18
3. Section <i>Brevisaccata</i>	18
4. Section <i>Cadetia</i>	18
5. Section <i>Calyptrochilus</i>	18
6. Section <i>Conostalix</i>	19
7. Section <i>Crinifera</i>	19
8. Section <i>Dendrobium</i>	19
9. Section <i>Dendrocoryne</i>	19
10. Section <i>Diplocaulobium</i>	20
11. Section <i>Eleutheroglossum</i>	20
12. Section <i>Grastidium</i>	20
13. Section <i>Latouria</i>	20
14. Section <i>Lichenastrum</i>	21
15. Section <i>Monophyllaea</i>	21
16. Section <i>Phalaenanthe</i>	21
17. Section <i>Rhizobium</i>	21
18. Section <i>Spatulata</i>	22
The Species	23
Glossary	140
